The CV605 5X optical zoom USB-C, HDMI and IP camera utilizes a professional grade 2 Megapixel sensor to capture crisp HD video starting at a wide-angle 85° and up to 1920x1080p resolution at 60fps. Multiple outputs include HDMI, USB.C and IP (H.265/H.264). Marshall's straight forward design and ease-of-use make this camera an affordable camera for a wide variety of video conference, video streaming and professional A/V applications. CV605-U3 can be setup through one Ethernet (CAT) cable carrying video, audio, power (PoE), and control over IP. Also is easily dockable via OBS Studio, Zoom (certified) and as well as useful in other soft codecs.

PRODUCT FEATURES

- 2 Megapixel (1/2.8") Full-HD sensor
- 5X Optical Zoom (3~15mm) – starting at 85° AOV
- Full-HD Resolution: 1920x1080p up to 60fps, & 1280x720p
- Low Illumination capability at 0.5Lux (F1.8) for challenging environments
- USB-C (USB3.0/2.0) HDMI and IP (H.265/H.264) or RS232 via RJ45
- Ethernet IP supports video, audio, control, and PoE over one Cat cable
- Control Options: Zoom (certified), software GUI via web, UVC1.5, OBS Studio plugins & docs, IR remote, Marshall VS-PTC-200 (RS232) & VS-PTC-IP (IP/RS232)
- 3.5mm audio linear input (AAC, MP3, G.711A compression)
